Pelargoniums
and
Geraniums

WOOSTER OHIO.
U.S.A.

TERMS OF SALE

Not less than six plants at dozen rates or twenty-five at hundred rates, or two hundred and fifty at thousand rates.

All plants offered in this list are well established in two-inch pots.

No charges made for boxes, packing or delivery to express office.

All claims must be made within five days from receipt of goods. We aim, by making each shipment profitable, to get new customers and keep old ones.

C. O. D. Shipments must be accompanied by one-half the amount of the order.

We take all possible pains to keep every variety separate and true to name.

Our packing is done by experienced men. The plants are wrapped in paper with moss at the roots. When the weather will permit they are packed upright in slatted crates; in cold weather they are packed in paper-lined boxes in such a way as will carry them safely to any part of the country.

Our terms are cash with order; we do not have time to keep books, and at the price we sell we cannot take any risk.

Pelargonium Novelties

When Easter Greeting Pelargonium was introduced, the prediction was made that it would be the forerunner of a new race of ever-blooming pelargoniums,

suitable for either bedding out or for pot culture. It gives us pleasure therefore, to offer the following sports of Easter Greeting.

Our Everblooming or Remontant Set for 1913

SWABIAN MAID — (Schwabenmadchen). This new sport of Easter Greeting has large reddish carmine flowers with five very regular black blotches bordered with purplish carmine. Very effective coloring. Its habit, foliage, robust growth, and everblooming qualities are like its parent Easter Greeting and can therefore be grown either as a pot plant or bedded out.

WURTEMBERGIA — Easter Greeting Sport. Medium sized florets of a bright carmine, with large velvety, sharply defined blotches. Has the good qualities of its parent. Equally valuable bedded out or as a pot plant.

Our hed of this variety at Minneapolis was very full of both bloom and buds and attracted a great deal of attention at the Convention as it was the first time it had ever been shown in this country planted out in heds. This variety is bound to make a place for itself with those who are looking for something new in hedding plants.

LUCY BECKER—This grand novelty is a sport of Easter Greeting and is like it in everything but color, which is a rosy pink. It is if anything even more free in bloom.

EASTER GREETING—(Ostergruss) "This new species is the earliest of all Pelargoniums with enormous florets and clusters having light green foliage and of dwarf robust growth. It blooms from March until Fall. The florets are of a fiery amaranth red with five regular shaped spots. The first and only kind to bloom as well bedded out as in pots and to do so all Summer. The only kind that stands bedding out in groups.

Nov. 12, 1912, the Ohio Experiment Station, at Wooster, Ohio, has tested Easter Greeting for two seasons as a pot plant and found it to be the freest bloomer in their collection, surpassing any Azalea as an Easter plant. The past season they tried it bedded out and were much pleased with it as a bedder.

This new ever-blooming Pelargonium was shown by us in the "Out Door Planting Exhibition" at Minneapolis. This bed at Convention time was covered with blooms and buds and remained in bloom until time for frost in September. It proved the most attractive novelty in bedding plants shown at the Convention. We predict that it and its sports will prove the forerunners of a new race of ever-blooming kinds that will increase the demand for a plant that rivals the Azalea in beauty.

WURTEMBERGIA

PANAMA

PELARGONIUM NOVELTIES

Our Novelty for 1914

EASTERN STAR—A cross between Easter Greeting and Graf Zeppelin. Ground color wild rose pink, with five large reddish brown spots, edged with

scarlet lake. This variety is somewhat remontant and hence has a long period of bloom. It is a dwarf compact grower. This is a very promising novelty.

Pelargonium Novelties from Carl Faiss

GARDENERS JOY—The ground color is apple blossom pink, the two upper petals have blotches of carbon brown, the florets are three and one half inches in diameter and are joined to enormous clusters which rise above the beautiful foliage and remind one of a Rhododendron cluster. It is of a half dwarf nature and very sturdy. On account of its rapid luxuriant growth it is a very profitable market variety.

GRAF ZEPPELIN—Considered by many to be the best novelty yet sent out by Carl Faiss. The color is salmon red and it has equally sized reddish blotches bordered with scarlet. The flowers are of fine form, semi-double and they form gigantic trusses. The habit is compact and the flowers held well above the foliage.

GERMAN GLORY—(Deutscher Ruhm). This splendid novelty is quite

remontant, florets and clusters are very large; ground color, Cattleya blue, very much like the Cattleya Orchid. The upper petals contain two large purple magenta red spots, distinctly veined. An exceedingly beautiful and entirely new color in pelargoniums. This kind has a very robust growth.

PRINCE BISMARCK—(Andenken an Furst Bismark.) Immensely large flowers, strongly crimped of fine shape, with from six to ten petals, color rich purple with velvety black blotches. Remarkably robust habit. The large clusters rise gracefully above the beautiful foliage. The blooming plant with its enormous flowers makes a striking impression.

WOLFGANG GOETHE—Florets large and slightly crimped, ground color, reddish carmine, with five well defined violet black spots. Robust grower.

Pelargonium Standard Sets

MRS. LAYAL—The true pansy geranium. The coloring and marking of the flowers are most extraordinary; light pink, white, dark purple, black, etc., almost rivaling the pansy in uniqueness of flower. It is this combination of coloring which obtained for it the popular name of Pansy Geranium.

MAD. VIBERT—A grand flower with black maroon blotches bordered fiery red, the flower entirely edged with rose.

SURPRISE—Large black blotches on upper petals, which have fiery red edge, surrounded with broad, white band with bright red spot in center.

EMMANUEL LIAS—Mottled rose and white, much crimped, vigorous.

MAD. THIBAUT—White, richly marked and blotched with rose, the upper petals marked crimson maroon

with large white center; petals heavily ruffled, giving it a double appearance.

DOROTHY—Rosy salmon, dark maroon, blotches on upper petals; a free and early bloomer.

MRS. ROBERT SANDIFORD—A charming pure white large flowering variety with ruffled edges and perfectly double.

KING OF SPAIN—Reddish purple; fine bold flowers of grand form; lighter center. Good constitution. Very showy.

LORD MAYOR TRELOAR—Bright rosy red, a very effective maroon blotch in the upper petals. Large white center and lighter margins. Free flowering.

GALATEA—Slightly fringed white, lightly marked or streaked pink. Rich blotch on upper petals. Robust habit.

SWABIAN MAID

GLORIOSA—An improvement on Kingston Beauty. Beautiful pearly white petals. Solid blotch on upper petals.

BRIDEGROOM—Rosy blush of very pleasing maroon shade. Beautifully crimped flowers. Dwarf and free.

DUKE OF CORNWALL—Gigantic well formed flowers of great substance, slightly crimped petals. Reddish crim-

son, each petal bordered light salmon. Splendid branching habit.

COUNTESS OF CREWE—Fine bold flowers of an attractive satiny rose shade. Petals beautifully crimped and of a thick leathery substance. Splendid sort.

VICTOR—Lower petals carmine, upper petals dark mahogany, edged with straw-berry and carmine, large white center. Free flowering.

GERANIUMS

NOVELTY FOR 1914

JOHN MEYER—A cross between L'Aube and Jean Oberle. The trusses of bloom are immense, having often over a hundred florets to the cluster, semi-double, pure white with no trace of color. Very free in bloom. Color of foliage dark green and leaves small like its parent, Jean Oberle. This fine novelty is best described as a white Oberle.

DE WITT'S PEDIGREE SET FOR 1912

GENERAL WAYNE—Seedling of S. A. Nutt crossed with Jean Oberle. Large semi-double flowers borne in large trusses, color rich carmine, foliage small. Habit and foliage like Jean Oberle. Stands bedding well.

AVIATOR RODGERS—Seedling of Mme. Landry crossed with Mme. L. Bisquit. Very large clusters of semi-double flowers. Color bright salmon. Habit very robust. Good as a pot plant or bedder.

DR. WILEY—Seedling of L'Aube crossed with Jean Oberle. Double florets, color darker pink than Oberle. Small foliage. Habit of growth ideal.

AVIATOR ATWOOD—Seedling of S. A. Nutt crossed with Jean Viaud. Very free in bloom. Stands the sun well. Semi-double flowers, medium sized foliage. Growth similar to Viaud. Color bright pink.

DeWitt's Pedigree Set for 1911

PANAMA—A cross between Dryden and Pamela. It is a very much improved Dryden, being a stronger grower and much brighter in color with distinct white markings in the upper petals. Very free flowering. Single flowers.

BRIGHT EYES—A cross between Jules Lametre and Jean Viaud. This is the most distinct yet offered in the Cyclops type. The flowers are large, color bright red shaded to violet with an unusually large white eye. Dwarf bushy growth. Single.

WHITE CLOUD—A cross between Mlle. Anastasie Lecadre and Pamela. Pure white form of Pamela which is well known as one of the best of the English round flowered type. Enormous trusses. Single.

RUBY—Seedling of S. A. Nutt crossed with Pamela. Beautiful semi-double flowers on extra long stems. Large clusters. As free in bloom as S. A. Nutt and of similar habit of growth. Color

dark currant red suffused with violet. Stands the sun well.

Minneapolis, Minn.
Sept. 17th., 1913.

F. H. DeWitt & Co.,
Wooster, Ohio.

Dear Sirs:—

Your new geranium, Ruby, is certainly worthy to have a place in every garden. It was in my opinion the best geranium in the garden. Your beds were looking fine after the Convention and I was sorry to dig them up when they were at their best. Yours very truly,

LOUIS BOEGLIN

Head Gardener of the Minneapolis Parks.

GENERAL WOOSTER—Seedling of S. A. Nutt and Jean Viaud. Plant of dwarf compact habit. Thick foliage. Enormous trusses, borne on heavy rigid stems. Color rose pink. As its parentage would indicate it is a good sort for pot plants or bedding out. Semi-double.

GARDENER'S JOY

**MRS. ANNIE VINCENT**

BARNABY RUDGE—Seedling of S. A. Nutt crossed with Red Wing. Strong grower. very free in bloom. Compact trusses. Double florets. Color rich carmine.

Bruant's 1909 Novelties

Single Varieties

FRIVOLA—Large trusses, grand flowers of a delicate rose lilac, upper petals shading to white at center; good bloomer. Excellent plant for assortment.

ANTITHESE—Plant robust; floriferous; large round flowers; vermillion scarlet, with one large white spot on the upper petals; great contrast of colors.

Double Varieties

BOHEMOS—Plant robust; compact habit; free flowering; fine trusses, semi-double flowers; elegant form; rich violet with velvety and fiery spots mixed.

ROSAFIERA—Compact habit; grand upright trusses; very good foliage; flowers semi-double; petals elegantly curled, fine rose, slightly shaded salmon; fresh and pretty color; good and free bloomer. Fine for bedding.

SCEVOLA—Large umbels; long

flower-stalks; semi-double flowers; clear rose, powdered rose carmine. Beautiful variety.

LYA BERGER—Good habit; robust; free flowering; large semi-double flowers; very open; a pretty shade of China rose.

CARJAN—Plant low and good foliage; trusses medium size but numerous, flowers large, flat very open, little double; dark red, big white center, forming fine contrast of colors.

Rozain-Boucharlat's 1909 Novelty

JULES CAMBON—Double flowers; dark currant red, shaded violet.

Standard Varieties

Single

DRYDEN—Bright cochineal red, shading to pure white in center; very floriferous; exceptionally clean, healthy and vigorous; foliage slightly zoned.

CLAIRE FRENOT—Plant robust and of good habit; excellent trusses, held well above the foliage; grand round flowers; nymphaea rose, shading Day-break, veined rose salmon. Can stand very inclement weather, making new growth well into the autumn.

L'AUBE—(Brt. 1895). Pure snow white, retaining its purity the entire season; large round florets; magnificent trusses. Its freedom of bloom, excellent habit of growth and ironclad constitution making it a most satisfactory variety either as a bedder or a pot plant. One of the best single whites.

MRS. E. G. HILL—(Brt. 1901). A magnificent variety; enormous trusses of large florets; the center of each petal is a soft light salmon bordered with rosy salmon; habit exceptionally strong and vigorous; attractively zoned; semi-dwarf; stands the sun perfectly. An old favorite bedder and pot variety.

Standard Varieties

Double

S. A. NUTT—The very best of the dark crimson scarlet bedders. Always in heavy demand. We have a very large stock of it. Stands the sun perfectly, and is always a mass of bloom.

RUBY

DAGATA—The finest bedder extant; the freest grower among free-flowering sorts that we have even seen; habit perfect; freedom, wonderful; attracts attention among a hundred other sorts. The color is bright, pure pink (an improvement on *Fleur de Rose* and *Jean Viaud*) with large plume of white at base of upper petals; a most effective bedder, often throwing the sixth and seventh petal. Semi-double.

MRS. ANNIE VINCENT—Plants of robust growth, easy of multiplication; short growth and floriferous; foliage slightly crimped; large round flowers, supported holdly on unbending flowers, stalks above the very vigorous foliage. Flowers are grand semi-doubde. Exceptional resistance to inclement conditions. Color pure carmine, somewhat maculated white, with a freshness and brightness incomparable. The qualities of the growth correspond with the flowers equalling in beauty the finest rose.

PRES. BAILLET—(Brt. 1906). In President Baillet we have a prominent candidate for first place among the magnificent Bruant race, heing a strong, robust, short jointed grower; large, dark zoned foliage; color bright scarlet, with a soft velvety finish, making a truly handsome Geranium. Large bold flowers and trusses, held well above the foliage.

ATLANTIS—Plant robust; stems rigid; trusses gigantic; flowers grand, produced freely; brilliant madder red. Useful for centers of vases, baskets, etc., or planting in arid places, as it is robust and its large trusses and brilliant coloring make it very effective. Semi-double.

LUIGI GRANDI—Good habit, under-laid foliage; grand trusses, held well above the foliage; blooming abundantly, violet carmine, shaded red on upper petals. One of the prettiest colors in our heavy wooded type. Semi-douhle.

ERNEST VERNET—Short stocky growth, the foliage resembling the Pelargoniums; grand flowers; enormous flowers and trusses; clear madder red, spotted lilac, veined scarlet. Beautiful semi-double.

ELIACIN—Has a good habit of growth, dwarf and compact, medium sized foliage, large trusses; semi-douhle flowers; bright mauve rose, shading lighter to white center. Has strong con-

ELIACIN

stitution, being able to stand all kinds of weather.

DUCHESSE DE CHAILLES—Enormous trusses, held well above the foliage; grand semi-double flowers; color pale rose, glazed mauve, striped white in a delicate style.

DOCTEUR DANJOU—A remarkable variety of magnificent color; intense violet; upper petals blotched white; very grand flowers; semi-double.

ALPHONSE RICARD—(Brt. 1894) Large, semi-double flowers, often measuring two inches in diameter, borne in enormous trusses, on long flower stems. Continues in bloom the entire season.

JEAN VIAUD—Large, semi-double rosy pink, flowers with white eye. Blooms with uninterrupted freedom the entire season, and is of such rapid and vigorous habit of growth, that it makes one of the best all round plants obtainable.

LA FAVORITE—(Lem. 1888). One of the finest double whites in this class; pure in color; flowers of enormous size; a continuous bloomer, the plant being

WHITE CLOUD

covered with flowers the entire season; has beautiful foliage and finest habit. Unsurpassed as a white bedder.

COL. THOMAS—(Brt. 1906). A most magnificent addition to the list of Mr. Bruant's introductions and one that is destined soon to rank among the highest grade of standard Geraniums. Distinct in color and exceptionally attractive, the color being a pleasing shade of deep cardinal red, apparently covered with a purplish sheen, deepening toward the center of the large well formed, handsome, semi-double flowers; the trusses are medium sized, but borne in the greatest profusion; habit dwarf, vigorous and branching. An easy variety to grow.

RED WING—Deep cardinal red, with a soft velvety sheen unusually attractive; semi-double flower, of good substance; large trusses as free as S. A. Nutt in bloom. Plant is robust, of strong growth and makes an ideal pot plant or bedder, as it stands the sun well; has no rival in its color.

JEAN OBERLE—(Brt. 1906). One of the most beautiful among that color

CARJAN

known as the peach-pink; an excellent shade of hydrangia pink, shading tenderly to almost pure white at the outer edges of each petal; the florets are especially well formed, just semi-double enough to be pleasing; the trusses are actually immense, often having over a hundred florets to the truss. The habit is exceptionally strong and vigorous, very free bloomer; foliage distinct, and one of the type that stands the sun perfectly; color of foliage dark green, with a slight chocolate zone. One of the best in this class and undoubtedly has a brilliant future.

MME. JAULIN—Semi-double. Very large florets compose a truss of grand size; center, tender pink, surrounded by border of white. For freshness and beauty this color is without a parallel among the out-door bedding varieties, and is equally fine as a pot specimen.

MISS F. PERKINS—A charming shade of light pink with white throat; fine large florets and trusses held well above the foliage on erect foot stalks; clean healthy foliage, constant bloomer! is a mass of color the entire season. Stands our climate well. Unsurpassed as a bedder.

RED WING

BEAUTE POITEVINE—The best semi-double, salmon bedder, large flowers, aurora-pink shading to bright salmon.

DOUBLE DRYDEN—Coral white center, shaling through a delicate lilac toward outer edge of the petals, which are

a beautiful glowing soft crimson; an exquisite combination of colors; splendid as a fancy pot plant.

MME. LANDRY—A distinct salmon pink, with a slight shading of scarlet; habit semi-dwarf, vigorous; broad, heavy deep-zoned foliage. It has all the best points of a Bruant Geranium.

Variegated Foliage

SILVER-LEAVED S. A. NUTT—Green, edged white; very similar to Mme. Salleroi; much stronger grower; flowers large, produced in fine trusses; very free bloomer; color brilliant crimson scarlet.

MRS. POLLOCK—Beautiful tri-colored leaf; bright bronze, belted with crimson and edged with broad band of golden yellow.

WM. LANGGUTH—Double red flower, beautiful green and white foliage.

Standard Ivy-Leaved Varieties

INCOMPARABLE — Trusses very large; florets of good form and full; color an exquisite shade of rosy carmine.

CAESAR FRANCK—An exquisite shade of rich soft crimson, coral veins on upper petals and center; magnificent double flowers, resembling in color a Crimson Rambler rose, only much brighter.

ALLIANCE—In 1905 when Mr. Le-moine introduced this variety he described it as a *Pelargonium Peltatum* Zonal "Alliance", signifying an affinity between the two types. A most exquisite shade of delicate lilac white, upper petals featured and blotched bright crimson rose; an extraordinary variety, having all the good qualities that make up an attractive geranium. Semi-double flowers abundantly produced in large trusses; beautiful foliage being of a splendid clean and leathery texture; excellent, robust, strong, close-jointed. This Geranium includes the beautiful soft finish of the Ivy and the hardy constitution of the Zonal.

MME. THIBAUT—Beautiful rose pink; flowers large and round; magnificent trusses. A very effective variety.

PIERRE CROZY—Bright scarlet; dwarf, compact habit. A good bedding plant where a low bed is desired; appears to be a cross between an ivy and zonal.

RYCROFT'S SURPRISE—Bold, vigorous, upright habit; large trusses of a lovely shade of soft pink; free and effective.

CORDON'S GLORY—A profuse bloomer of an exquisite bright scarlet double flower, which is considered to be one of the best of this type; the plants display a continual profusion of bloom.

ACHIEVEMENT—Immense semi-double flowers of a distinct and pleasing shade of soft cerise pink, freely produced in large trusses; good habit and constitution, being a cross with a zonal plants are luxuriant, healthy growers, blooming long and in prodigal profusion.

EASTER GREETING
